HIGHPOINTE GLEN

8 Legacy Inspired Limited Edition Lots in Old Glenmore

Created with a vision 50 years in the making, the lots at Highpointe Glen are carefully carved into the natural hillside to create harmony between human habitation and the natural world. Through a thoughtful design approach, each lot is uniquely situated with site, dwelling and landscape being fully integrated.

DESIGN PHILOSOPHY

Meaningful houses expand and enrich our experiences by resensitizing our senses and sharpening our awareness of the world and others.

BIGGER ISN'T NECESSARILY BETTER

- A smaller footprint that is carefully designed and detailed offers functional spaces that are used daily. This model is far more cost effective, since the client is not spending money building out spaces that will rarely be used.
- Thoughtful site planning takes advantage of rock outcroppings and natural contours, integrating them into the build to create one-of-a kind features that become focal points instead of building problems.
- A smaller footprint with more greenspace surrounding houses allows each site the best possible views along with abundance of privacy rarely found today.

GO GREEN

- No disturb green spaces infused through the 8 lots create a natural buffer between building sites.
- We believe in energy efficient housing including solar panels, electric car charging station and geothermal heating.

DESIGN MATERIALS

- The use of natural finishes combined with clean, simple lines create the opportunity for unsurpassed modern organic living.

LOCATION

- Close to the mountains, trails and the golf course, this location is perfect for the sports enthusiast.
- City amenities are within a 5 minute drive, and the airport is just 10 minutes away.
- Lots this private, and this close into town are becoming a rarity. Once they are gone, they are gone!

EXTERIOR INSPIRATION IMAGES

Modern architecture with flat roofs blends with the surroundings and allows for upper lots to look over the houses below.
